## Adjustable LCD Monitors

### Features:

- Fully adjustable stand: height, swivel, tilt, pivot
- High dynamic contrast ratios of 8000:1 (943BT, 943BWT, 2243BWT), and 20,000:1 (2443BWT)
- Ultra-fast 5 ms response time
- Ultra-thin 15mm (.59") bezels
- Exclusive MagicTune™ display control software
- Exclusive MagicColor™ and MagicBright 3™ picture technology
- MagicRotation™ software allows portrait or landscape views

2443BWT

It's easier if your monitor pivots, tilts, swivels and adjusts to the perfect height, rather than you. The infinitely adjustable Samsung BT/BWT series LCD displays are not only easy on the neck and shoulders, they're easy on the eyes. High dynamic contrast ratios of 8000:1, and 20,000:1 on 2443BWT, combine with fast 5 ms response for highly detailed motion graphics. Exclusive MagicTune™ software gives you accurate and easy display management. And multitasking is easy with the BWT widescreens. You'll have more room for open applications, tool palettes and images. The height of comfort and productivity. Samsung BT/BWT displays.

## Adjustable LCD Monitors

### Features

#### Fully Adjustable

BT/BWT series displays are ergonomic marvels. You can swivel, tilt, pivot and adjust to the perfect height. MagicRotation software allows you to easily switch from portrait view to landscape view.

#### High Dynamic Contrast Ratios

Samsung dynamic contrast continually optimizes signal for optimized contrast. Dynamic contrast ratios of 8000:1, and 20,000:1 on the 2443BWT, deliver superior detail in the whites and blacks.

#### Fast 5 ms Response Time

The fast 5 ms response time means your motion video will be smooth and smear-free.

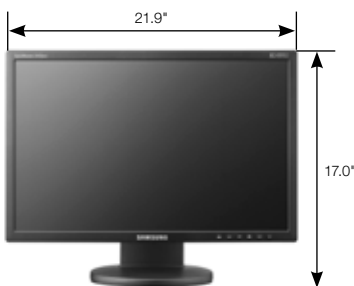

#### Aspect Ratio Control

Samsung BWT series widescreens feature aspect ratio control, which allows you to view 5:4 and 4:3 content on a wide-format monitor, without having the picture automatically stretched artificially.

#### Exclusive Magic Technologies

MagicTune offers software- and wizard-based full control of display characteristics and adjustments. MagicColor features Full mode to enhance overall color, and Intelligent mode to enhance color without affecting delicate skin tones. And MagicBright 3 gives you picture presets, for optimum viewing at the touch of a button.
